## Summary

---

I graduated from the Faculty of Science, majoring in Statistics and Computer Science, with practical experience in front-end development gained through academic projects and self-learning. I have developed several responsive web pages using HTML, CSS, JavaScript, React.js, Angular, and Next.js, with strong skills in translating Figma designs into clean, pixel-perfect user interfaces.

In addition to my front-end expertise, I have a solid background in back-end development using Node.js, which gives me a well-rounded understanding of full-stack web applications. I'm a fast learner, passionate about modern web technologies, and eager to grow within a professional team environment where I can contribute to building impactful, user-focused digital experience

## Education

---

**9-Month Professional Diploma, Professional Training Program (PTP),  
Information Technology Institute (ITI), Web and User Interface Development,  
Smart Village branch**

Oct 2024 – June 2025

- Electronics E-commerce– [Frontend](#) – [Backend](#) –[Demo](#)  
Technologies used: Node.js – Typescript – Mongo DB – Angular TS– Bootstrap
- FurniHome E-commerce– [Frontend](#)– [Backend](#)–[Demo](#)  
Technologies used: Node.js – Typescript – Mongo DB – React– Tailwind
- E-commerce – [Github](#) – [Video](#)  
Technologies used: Node.js – Typescript – Mongo DB – Pug .js – Sass
- Hospital System – [Behance](#)  
Technologies used: Figma

**Bachelor of Science**

Sept 2020 – May 2024

- computer science and statistics
- Graduation Grade: very good
- Attendance System - [GitHub](#)  
Technologies used: HTML - CSS - Flask

## Work Experience & Internships

---

**Freelancer – Hotel Booking on Mostaqi platform**

July 2025 – August 2023

### Job Responsibilities

- Created a complete hotel website as a freelance project – [Frontend](#) – [Backend](#) – [Demo](#)
- Technologies used: React.js , Node.js, Typescript, Mongo DB, Tailwind CSS

## Internship at Code Track

March 2023 – April 2023

### Job Responsibilities

- The training was about building an online store – [GitHub](#) – [Demo](#)
- Technologies used: HTML, CSS, JavaScript

## Projects

---

- Movies– [GitHub](#)– [Demo](#)  
Next.js – TypeScript – Tailwind CSS
- E-commerce – [GitHub](#) – [Demo](#)  
Next.js – TypeScript – Tailwind CSS – React Icon – API
- Weather – [GitHub](#) – [Demo](#)  
Next.js – TypeScript – Tailwind CSS – React Icon – API
- Social Media – [GitHub](#) – [Demo](#)  
HTML – CSS – JavaScript –API

## Volunteer Work

---

- **Care Egypt** – [Recommendation](#) Nov 2023 – Dec 2023  
I perform multiple roles at this foundation, one of which is data validation.

## Training Courses and Certification

---

- **Udemy** In Progress
  - React.js, Next.js, Typescript, Redux
  - Node.js, Mongo DB, Nest.js, PostgreSQL DB
- **Education for Employee** May 2024 – June 2024
  - HTML, CSS, JavaScript

## Technical Skills

---

### UI UX

Photoshop – Adobe \_XD – Illustrator – Figma

### Front-end

HTML – CSS – Sass – JavaScript – Bootstrap – React.js – Next.js– TypeScript – Tailwind CSS – jQuery – Angular TS – Material UI – React Icon – Redux

### Back-end

Node.js – Express.js – Mongo DB

### Tools

Git – Postman – Scrum

### Other

Data Structure – C – C++

## Interpersonal Skills

---

- Teamwork
- Working under pressure
- Leadership & Mentoring

## Languages

---

- Arabic: Native
- English: Intermediate
